## Our Ministers!

Each Sunday and oftentimes throughout the week, the minister of your church lifts his head in prayer and envisions the heaven of your faith. He is a patient man. He's there, your loyal friend, in sickness, sorrow. He officiates at weddings and visits the homes of his parishioners. Yet with all his biblical knowledge and his interest in his sermons, he is a man. A fine man. And he should be treated as a friend and companion, not merely as a cleric. Your minister and his church deserve all the support you can give them. Attend services regularly and be generous with your contributions.

## NOW 3 OUT OF 4 TELEPHONE ORDERS FILLED IN A MONTH

In some fastest-growing areas the wait still is long—but we're making steady progress

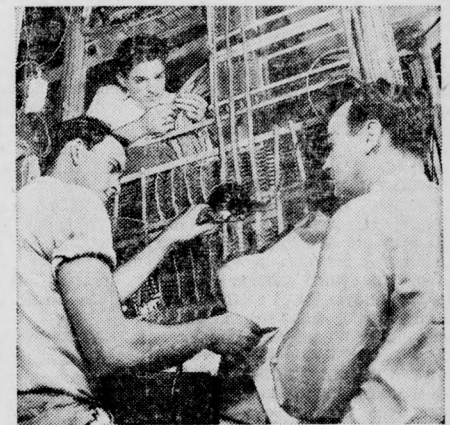

2. Hundreds of miles of telephone cables have been going in at a fast clip. But these voice-highways are still bottlenecked in some places—in many of our fastest-growing areas, practically no telephones can be installed for months... until the lines and other facilities can catch up with the mushrooming demand. The telephone picture looks better... but it's not yet all we want it to be.

4. Huge sums of money have gone to work in the West to make this new equipment possible—and your own telephone more valuable. Millions must come—not from bills—but from people who put savings into the telephone business. To attract these dollars, we must pay a reasonable amount for their use... must sell our services at fair, adequate prices.

1. Installers have been working fast the first half of 1949... keeping up their pace of the postwar years. Here in the West, 145,000 new telephones will have gone into service in the first six months of the year. Although new orders keep pouring in, we're able to take care of them faster. Seventy-two per cent are filled within thirty days—that's practically three out of four.

3. Nearly a million and a half tiny soldered connections must be made before new equipment like this can begin working in a medium-sized office. But we're hurrying all we can to make the waiting time shorter still. Your telephone needs are very real to us and we won't be satisfied until everyone... everywhere in the West... has more and better telephone service than ever before.

## OUTDOOR CALIFORNIA

LOS ANGELES — Ocean sport fishing off the California coast is approaching its seasonal peak, followed closely by a corresponding upswing in arrest for violations of conservation laws, reports the Division of Fish and Game.

Some anglers are confused by additional regulations set this year by the Fish and Game Commission in its perpetual task of juggling fish economics to match supply and demand.

Here's a brief round-up of current bag and possession limits on ocean species:

An aggregate limit of 10 fish applies to bluefin and yellowfin tuna, skipjack, yellowtail, marlin, broadbill swordfish, black and white sea bass, albacore, barracuda, bonito, rock and kelp bass, California halibut, California corbina yellowfin and spottin croaker, lingcod, and cabezone, provided that not more than two of such fish are marlin, black sea bass or swordfish.

A new regulation makes it illegal to possess more than 15 rockfish in the aggregate of all species. Various members of the rockfish, or Sebastodes, family go by some of the following names: rock cod, treefish, bocaccio, grouper, bluefish, red snapper, chucklehead, and china fish.

Generally any of the 50 rockfish species found in California waters may be identified by the 13 deeply notched back spines.

Two to five striped bass, and three salmon or steelhead trout rounds out the maximum ocean fish possession limits, except for occasional weight limits. There is no bag limit on any other ocean fish not listed above.

## Let's Browse IN THE CAMPBELL LIBRARY

Mrs. Elizabeth Singletary, County Librarian, provides a list of books this week whose subjects range from winter adventures along the Alaskan coast to Chicago's South Side. Delightful summer reading is provided in the tale of a Welsh family in Ohio, and the wandering life of minstrel Burl Ives.

Ask for these books when you visit the Campbell Public Library. Mrs. Florine Peake, librarian, will be glad to help you with additional suggestions for light or serious summer reading fare. Hours are 1 to 5 p.m. daily, and 7 to 9 p.m., Monday, Wednesday and Friday.

Helmericks, Constance and Harmon.

### OUR ALASKAN WINTER

Almost all recent books on Alaska are about the new Alaska, and the only ones to write of the old-time, primitive country are the authors of this book — a young adventurer and his attractive wife who went to the arctic a few years ago. This is their fourth book on the subject, and it is concerned with winter exploits along the sea-coast between Point Barrow and the delta of the Mackenzie River. There are only Eskimos on this far north shoreline, and the

Helmericks learn to live like Eskimos. They are not above eating blubber — the emptied stomach of a walrus or whale. They do not attempt to romanticize these friendly people, but describe them as they are. A couple of fables go by the board: the real igloo built by an Eskimo is not round but square; wolves do not necessarily leap at the jugular of a fleeing caribou, but will snap at any part they can grab first.

This book has the flavor of authenticity and reality, and is the best book written so far by the ingenious Helmericks. Those who have read their earlier books will need no invitation, but those who have not should begin now and give themselves a treat. Titles of these earlier books are as follows: "We live in Alaska," "We live in the Arctic," and "Our summer with the Eskimos."

Ives, Burl.

### WAYFARING STRANGER

When a man makes a notable success of something, people always want to know how he got started. This is the story of the making of a ballad singer, a singer who is a creative as well as an interpretive artist; and it is no accident that the words and

tunes he sings always have grace and beauty. Burl Ives tells of all the things he did before he became recognized as America's foremost ballad singer. He sketches his youthful love affairs, in both rustic and urban settings. He tells us how he went to Eastern Illinois Teachers College for almost three years, until one morning he walked out on Beowulf and became then and there a wandering minstrel with a banjo on his back. It was a good life — more fun becoming than arriving — and our singer-author writes it all down with terseness and humor.

Willette, Dorothy Davis.

### THE SPEAR PENNY

According to Welsh tradition if one person has wronged another he must compensate for that wrong — this payment is the spear penny. In the early 1800's, beautiful, selfish Megan and her family moved from their farm in Wales to Ohio, where Megan undertook to bring up her sister's fatherless child, to pay for a wrong brought about by her willfulness.

Descriptions of quaint Welsh customs as well as of the dramatic New York of Jenny Lind and Barnum provide interesting con-

trasts in background for these finely drawn character studies of Megan, her husband and her sister, whose story makes an absorbing addition to our summer reading list.

Meeker, Arthur.

### PRAIRIE AVENUE

Prairie Avenue was the grand street of Chicago's South Side during the Victorian years; here were

the homes of the great merchants, the wheat king and meat kings. The author begins his story when twelve year old Ned Ramsey came to live with his uncle on Prairie Avenue, in 1885, and who returns again and again until 1918, when the younger generation has moved to more fashionable locations and the grandeur has faded.

Book One is a beautifully told story of the interplay of happy

childhood with the background of adult tension and tragedy; Book Two carries over the results of the earlier tragedies to the second generation.

## Kirkwood Active In State Assembly School Legislation

"If a poll were to be taken on the legislators with the most complete understanding of school finance and the economic problems of education," says the California Teachers Association Legislative Letter of June 14, "there is no doubt that members of the Assembly and educators who have listened to committee hearings would agree that Kirkwood should rank with those at the top of the list."

Kirkwood is Robert C. Kirkwood, Saratoga, now serving his second term in the California State Assembly. Although his activities during the current legislative session have seldom gained him front page notice, he has become a respected and valued member of the Assembly through his interest in and knowledge of school problems.

### BUDGET COMMITTEE

The Saratoga was one of three assemblymen selected from a field of 80 to work out the billion dollar state budget for the coming fiscal year. The three assemblymen met with three of the state senators to iron out kinks in the budget, and Kirkwood was instrumental in bringing about a meeting of the committee's minds and in obtaining final support of the budget measure which was passed by the legislature last Friday. The compromise budget covers a spending program of \$1,035,000,000, the largest in the state's history. Kirkwood was the only member of the Assembly Ways and Means Committee to serve on this assembly budget committee.

Kirkwood, who served as Acting Speaker of the Assembly on Friday, authored Assembly Bill 2027, which is designed to prevent a school district from appearing poorer than it is merely because of excessively low assessment practices in the county.

Members of the Assembly Ways and Means Committee were told last week by Kirkwood that AB 2120 was the most important bill now before the Legislature, and that he would vote against sending any bill to the Assembly floor until work on school apportionment legislation is completed. Some of his colleagues claim that the Saratoga legislator's keen understanding and analysis of education bills have made them look to him for guidance and leadership on all such legislation. Kirkwood is a co-sponsor of AB 2120, school apportionment bill, AB 956 on teacher retirement, and AB 2260, providing for state aid in schoolhouse construction.

## Colombian Youth Taking Training With TB Group

Mary Patton, featured in the seventh of the Constant Invader broadcasts heard currently on Sunday at 12:45 p.m. over Station KEEN, is the daughter of a doctor and a nurse and is herself a social welfare worker as well as a popular New York radio actress. Presented by the Santa Clara County Tuberculosis Association, the 13 true-life dramatizations have Ray Milland as narrator. They were produced in New York and Hollywood by the National Tuberculosis Association.

Juan Olaya, Ph.D. from the Republic of Colombia, who has been studying health education at the School of Public Health, University of California, has been assigned to the Santa Clara County Tuberculosis Association for three weeks' field training. Prior to his studies in this country, he was supervisor of curriculum planning and teaching of chemistry in the high schools and colleges of Colombia. From San Jose, Mr. Olaya will go to Washington, D.C. and then to Puerto Rico to observe public health programs. He will return to Colombia to a position with the Ministry of Health and the Ministry of Education.

## Hot Lunch Program For Moorpark and San Tomas Schools

The Board of Trustees of the Campbell School District is making the necessary arrangements for hot lunches to be served in the Moorpark, and San Tomas Schools for the coming school year.

As kitchen facilities are not adequate in these schools the food will be cooked in a central kitchen and transported for serving in insulated, sealed, and sanitary containers. Mrs. Florence Fuller, present cafeteria manager, will manage the program.

## Something For Whole Family At Mountain View

Something for the whole family will be the keynote of the Mountain View Centennial Celebration, July 14 through 17, but with particular emphasis on the kiddies.

Friday, July 15 from noon until six, will be devoted to the children beginning with the kiddies pet and costume parade for about 1500 kiddies from Mountain View and vicinity.

Mrs. Mae Armanini, chairman of the pet parade, announces that there will be prize ribbons for all topped off with ice cream and candy for all participants.

Kid's day events will follow with all types of races, three-legged, sack, dashes and many others. Double bubble gum contests, roller skating races, pie eating contests for both boys and girls will be featured according to Perry Stratton, chairman of the kids day events committee.

Indian folklore dances will be staged by the Palo Alto Boy Scouts in conjunction with the pageant and kid's day events.

All four days will be packed full of entertainment features for the children to include clowns, monkeys, kiddie rides, pony rides, and fireworks in the evening.

Momma and poppa will not be overburdened, says the Centennial committee since rest rooms, nursery rooms, and other conveniences will be provided to accommodate the weary.

A four day pageant spectacle depicting the history of California, Santa Clara County, and Mountain View will be presented along with a coronation ball, street dances, and a Castro Street Gayway as part of this community Centennial Celebration July 14 thru 17.

## Ice Follies Sets Holiday Matinees

To accommodate out-of-town patrons who plan to visit San Francisco during the July Fourth holidays, the "Ice Follies of 1949" have scheduled two matinees at Winterland—one on Sunday, July 3, and a special matinee on Monday, July 4.

The Sunday night performance will also be presented but the usual Monday night show will be cancelled in favor of the 2:15 matinee.

George Campbell, manager of Winterland, said special service will be accorded mail-orders received from out-of-town fans.

California voters enacted the initiative and referendum in 1911 by a vote of 168,744 to 52,093.

## House Trailer License A Must

A. H. Henderson, Director of Motor Vehicles, pointed out today that House Trailers or Trailer Coaches, must bear 1949 license plates if they are parked in a Public Trailer Camp.

While it is unusual that a vehicle which has not operated in 1949 must bear 1949 plates, nevertheless such is the case for House Trailers parked in Public Trailer Camps under Section 18600(e), Health and Safety Code, according to Henderson.

While on the subject of House Trailers, Henderson also pointed out that they must be equipped with adequate brakes controlled by the driver in the towing vehicle, if they weigh over 1500 pounds unladen.

Said bonds are registerable only as to principal and interest.

#### PURPOSE OF ISSUE

Said bonds were authorized at an election held in said District on May 31, 1949 to be issued and sold for the purpose of raising money for lawful school purposes.

#### SECURITY

Such bonds are general obligations of the Cambrian School District of Santa Clara County, State of California, and the Board of Supervisors of Santa Clara County has power and is obligated to levy ad valorem taxes for the payment of said bonds and the interest thereon upon all property within said Cambrian School District subject to taxation by said Cambrian School District (except certain intangible personal property, which is taxable at limited rates), without limitation of rate or amount.

#### TAX EXEMPT STATUS

In the event that prior to the delivery of the bonds the income received by private holders from bonds of the same type and character shall be declared to be taxable under any Federal Income Tax Laws, either by the terms of such laws or by ruling of a Federal Income Tax Authority or Official which is followed by the Bureau of Internal Revenue, or by the decision of any Federal Court, the successful bidder may, at its option, prior to the tender of said bonds by the Board of Supervisors, be relieved of its obligation under the contract to purchase the bonds, and in such case the deposit accompanying its bid will be returned.

#### LEGAL OPINION

The successful bidder must obtain legal opinion, approving the validity of said bonds, at its own expense.

A certified Transcript of the proceedings for the issue of said bonds will be supplied by the District without cost to the bidder.

#### TERMS OF SALE

Highest Bid: The bonds will be awarded to the highest and best bidder considering the interest rate or rates specified and the premium offered, if any. The high-

est bid will be determined by deducting the amount of the premium bid (if any) from the total amount of interest which the District would be required to pay from August 1, 1949 to the respective maturity dates thereof, at the coupon rate or rates specified in the bid, and the award will be made on the basis of the lowest net interest cost to the District.

The lowest net interest cost shall be computed between the dates aforesaid according to standard bond interest tables. The purchaser must pay accrued interest from August 1, 1949 to the date of delivery. The cost of printing the bonds will be borne by the District.

**Right of Rejection:** Said Board of Supervisors reserves the right in its discretion to reject any and all bids, and to waive any irregularity or informality in any bid.

**Prompt Award:** The Board of Supervisors will take action awarding the bonds or rejecting all bids not later than twenty-four (24) hours after the expiration of the time herein prescribed for receipt of proposals; provided that the award may be made after the expiration of the specified time if the bidder shall not have given the Board of Supervisors notice in writing of the withdrawal of such proposal.

**Prompt Delivery:** Delivery of said bonds will be made to the successful bidder at the office of the County Treasurer of Santa Clara County, in San Jose, California, as soon as the bonds can be prepared, which is estimated to be August 1, 1949.

**Right of Cancellation:** The successful bidder shall have the right, at its option, to cancel the contract of purchase if the bonds are not tendered for delivery on or prior to September 1, 1949, and in such event the successful bidder shall be entitled to the return of the deposit accompanying its bid.

**Form of Bid:** All bids must be for not less than all of the bonds hereby offered for sale, and for not less than the par value thereof and accrued interest to date of delivery. Such bids, together with bidder's check, must be enclosed in a sealed envelope, addressed to the Board of Supervisors of Santa Clara County, and endorsed "Proposal for Bonds of Cambrian School District of Santa Clara County."

**Bid Check:** With each bid must be submitted a certified check or cashier's check for \$1,000.00 drawn on a bank or trust company authorized to transact and transacting business in the State of California, payable to the order of the Treasurer of Santa Clara County, to secure said Cambrian School District from any loss resulting from the failure of the bidder to comply with the terms of its bid. In addition, bidders are requested (but not required) to supply an estimate of the total net interest cost to the District on the basis of their respective bids, which shall be considered as informative only and not binding on either the bidder or District. Checks of the unsuccessful bidders will be returned upon the ward of the bonds. No interest will be paid upon deposit made by the successful bidder.
